 - The mission of Empire State Development (“ESD”) is to promote a vigorous and growing state economy, encourage business investment and job creation, and support diverse, prosperous local economies across New York State through the efficient use of loans, grants, tax credits, real estate development, marketing, and other forms of assistance. To support broadband access for communities across the state, Empire State Development’s ConnectALL Office (“CAO”) has issued this Request for Applications (“RFA”) for the Municipal Infrastructure Program (“MIP”).
 - Through this RFA, CAO intends to support the development of open-access and predominantly publicly controlled last mile fiber broadband infrastructure that will directly connect homes, businesses, and community anchor institutions to reliable high-speed internet service, using funding from the U.S. Department of Treasury Capital Projects Fund (“CPF”). The objective of this RFA is to improve broadband access in communities across the state facing connectivity challenges due to the lack of affordable, high-speed internet infrastructure.
