

## Program Questions: Community Resilience and Flood Risk Reduction Grants

### Q\_18347

Are you an eligible applicant as defined by the Community Resilience and Flood Reduction Grants Request for Applications? See Question Requirements for document link and more details.

- Question Type: Threshold
- Required: Yes
- Answer Type: Yes/No
- Question Requirements:

Review the [Community Resilience and Flood Risk Reduction Request for Applications](#) for full eligibility requirements.

**Eligible Applicants for Coastal Rehabilitation and Resilience:** Municipalities as defined by the [Bond Act Legislation, Chapter 43-B, Article 58, Section 58.0101](#), Not-for-Profit 501(c)3, Soil and Water Conservation District or New York State entity with a project(s) located within the New York State Coastal area or located within the NYS Coastal Nonpoint Source boundary. See link in question help to determine if you are eligible for this program.

**Eligible Applicants for Inland Flooding and LWRP:** A village, town, or city, located along the State's coast or a designated inland waterway, or a county with the written consent and acting on behalf of one of more village, town, or city, located along the State's coast or a designated inland waterway with a complete or substantially complete LWRP or LWRP component.

### Q\_16364

Are you able to provide the required match of at least 10% of total eligible project cost?

- Question Type: Threshold
- Required: Yes
- Answer Type: Yes/No
- Question Requirements:

Costs must be adequately justified and directly support the scope of work outlined in the application for the proposed project. Proposed total project costs, including match components, must be essential to project completion. Applicants must identify the amount, type and source of eligible local match, and demonstrate that it has been secured; failure to do so may result in a reduced award amount for qualifying applications.

Failure to adequately justify direct project costs will render costs ineligible. Ineligible costs will be eliminated from the total project costs in the grant application.

Review the [Community Resilience and Flood Risk Reduction Request for Applications](#) for additional information on program match (<https://dos.ny.gov/clean-water-clean-air-and-green-jobs-environmental-bond-act-2022-community-resilience-and-flood>).

### Q\_16365

Is the State assistance request for grant funding equal to or more than the required Program(s) minimum? See Question Requirements for Program minimums.

- Question Type: Threshold
- Required: Yes
- Answer Type: Yes/No
- Question Requirements:

\$300,000 required minimum for Coastal Rehabilitation and Resilience projects.

\$150,000 required minimum for Inland Flooding and Local Waterfront Revitalization Program (LWRP) projects.

Applications requesting under the required minimums in grant funding will be disqualified and will not be scored.

Refer to ARTICLE 42 [Waterfront Revitalization of Coastal Areas and Inland Waterways \(https://www.nysenate.gov/legislation/laws/EXC/911\)](https://www.nysenate.gov/legislation/laws/EXC/911). Not including the name of a coastal waterbody or designated inland waterway may result in the project being determined ineligible for funding.

### Q\_13965

Is this grant application being submitted by a County, with the consent and acting on behalf of one or more village, town, or city?

- Question Type: Standard Question
- Required: Yes
- Answer Type: Single Choice Radio Button
- Choice Options: Yes,No
- This is a conditional question.
  - If Yes is selected then Q\_13962 will be displayed

### Q\_13962

If yes, list all eligible municipalities participating in the project and attach a letter or resolution from each municipality which demonstrates their consent and support for the application. See Question Requirement link for instructions.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- This is a conditional question based on the answer to Q\_13965. This question displays when selecting the answer: "Yes"
- Question Requirements:

If this application is submitted by a County, with the consent and acting on behalf of one or more eligible village, town, or city, the County is required to attach a letter or resolution from all eligible municipalities participating in the project which demonstrates their consent and support for the application. This attachment is only required for applications submitted by a County who will execute a contract with DOS if the project application is funded.

Resolutions can be submitted in the Documents section of your application under Q\_1978 Attach resolutions, municipal agreements, executed Intermunicipal Agreements or other items to the submission to help illustrate support for the application/project. The Department of State does not have a prescribed template for municipal resolutions.

Letters of support can be submitted in the Documents section of your application under Q\_6946 Please provide Letters of Support for your project.

Letters may be addressed to NYS Secretary of State, c/o Office of Planning, Development and Community Infrastructure, 99 Washington Avenue, Suite 1010, Albany, NY 12231.

### Q\_16604

Identify the current legal owner(s) for all properties where improvements will be implemented. See Question Requirements for more information on acceptable documentation of site control.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: 0 -
- Question Requirements:

Review the [Community Resilience and Flood Risk Reduction Request for Applications](#) for more information.

### Q\_16367

Briefly describe what project development has been completed to date. Include any planning, analysis, design, permitting, or construction activities that have progressed the project work.

- Question Header: Project Details
- Question Type: Standard Question
- Required: Yes
- Answer Type: Short Answer
- Question Requirements:

Briefly describe what project development has been completed to date. Include any planning, analysis, design, permitting, or construction activities that have progressed the project work.

Complete this question for all programs you are applying to under this CFA.

### Q\_16301

Indicate the level of design and construction that will be completed with funding.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Single Choice Radio Button
- Choice Options: Final Design and Construction, Construction
- Question Requirements:

Complete this question for all programs that you are applying to under this CFA. For applications seeking funding for final design and construction, a feasibility plan, engineering report, preliminary design or equivalent must be submitted. For applications seeking funds for project construction only, the applicant must submit draft or final design documents, any permits or approval received, and SEQRA determination.

### Q\_16603

Describe how the project will be implemented including project scope of work, project readiness, and time frame. Identify the set of discrete tasks necessary to complete the scope of work and deliverables associated with each task. For each task provide associated cost, key project personnel, and a schedule for completion.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any

### Q\_18351

Describe the selection process for the proposed project scope including alternatives considered.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any

### Q\_16896

Describe your long-term operation and maintenance plan for each project. Provide a detailed explanation of the workforce (e.g. municipal staff), funding, frequency and maintenance activities that will ensure the success of the project throughout its estimated useful life

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

For Environmental Bond Act funded projects, the useful life of the project should be 30 years. More information can be found: [N.Y. State Finance Law Section 61 – Probable life of certain works or purposes of state debt \(2026\)](#)

#### Q\_16292

How does the proposed implementation project incorporate the New York State Department of State Resilience Principles? Identify each relevant Resilience Principle and describe how the project demonstrates or leverages the principle. See Question Requirements for link to NYS DOS Resilience Principles.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)

#### Q\_18361

Is the project site (physical address) located within a municipality with a Disadvantaged Community (DAC) population? NYS DOS Bond Act List of Municipalities that Contain DAC Populations and Question Requirements to assist in completing this question. Please select one of the following.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Single Choice Radio Button
- Choice Options: Project is within a municipality with a DAC population of 81-100%,Project is within a municipality with a DAC population of 61-80%,Project is within a municipality with a DAC population of 41-60%,Project is within a municipality with a DAC population of 20-40%,Project is within a municipality with a DAC population of 1-19%,Project is within a municipality with no DAC population
- Question Requirements:

Please refer to the List of Communities with DACs provided with the [Community Resilience and Flood Risk Reduction Request for Applications](#)

#### Q\_18354

Describe how the proposed project will protect, conserve, enhance or restore Natural Resource(s). Include any impacts to surface and/or groundwater flow, natural processes and/or water quality.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

Natural Resources may be ecosystems and habitats, including designated significant coastal fish and wildlife habitat, natural protective features (wetland, floodplain, active river area, beach, dune) or scenic areas of local or statewide significance.

See the [Community Resilience and Flood Risk Reduction Request for Applications](#) for full evaluation criteria and other examples of natural resources.

#### Q\_16617

Describe and provide documentation on the project site location's overall flood risk and how the project will reduce flood risk or increase flood protection. Describe how the project site is impacted by frequent flooding or describe how a project will increase capacity to store or retain stormwater.

- Question Header: Resilience and Flood Risk Reduction
- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: 0 - 500
- Question Requirements:

Applicants should specifically describe how the proposed project incorporates consideration of sea-level rise, storm surge, erosion and/or flooding in project design to make projects more resilient and reasonably safe from flood and erosion damage. Include all referenced documentation in the Attachments section.

#### Q\_16892

For each project within the 1% (100-year) or 0.2% (500 year) annual chance of occurrence floodplain flood hazard area, explain how the project demonstrates flood resilience that is consistent with the New York State Flood Risk Management Guidance for Implementation of the Community Risk and Resiliency Act. Answer N/A if this question does not apply to your project.

#### Q\_16810

Indicate if the proposed project is located in a floodplain, Coastal Erosion Hazard Area (CEHA), and/or a locally determined at risk area and if so, describe how the proposed project will be resilient to flooding and/or erosion risks. See Question Requirements link for instructions.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

Applicants should specifically describe how the proposed project incorporates consideration of sea-level rise, storm surge, erosion and/or flooding in project design to make projects more resilient and reasonably safe from flood and erosion damage. Applicants may refer to the DOS resilience planning webpage and resilience principles available at: <https://dos.ny.gov/resilience-planning>.

Floodplains are flood hazard areas identified on Flood Insurance Rate Maps as a Special Flood Hazard Area (SFHA). **To determine if your proposed project is located within a floodplain, refer to maps available at the FEMA Region Support Center website at: <https://msc.fema.gov/portal/home>.**

Coastal Erosion Hazard Areas: NYS has identified coastal areas along the shorelines of Lakes Erie and Ontario, the entire coastline of Long Island, and the Atlantic Ocean coastline of New York City which are at risk to coastal erosion from natural and human activities. **To determine if your proposed project is located within a CEHA, refer to maps issued by NYS DEC available at: <https://www.dec.ny.gov/ifs/projects/coastal/>.** Currently available CEHA maps only cover the following counties: Cayuga, Chautauqua, Erie, Jefferson, Monroe, Nassau, New York City, Niagara, Orleans, Oswego, Suffolk, Wayne, Westchester.

Applicants should be aware that certain activities and development are regulated in CEHA areas through the CEHA permit program. Under this program, NYS DEC or CEHA certified communities consider approval of regulated activities or land disturbance to properties within CEHAs. More information on the CEHA permit program is available at: <https://www.dec.ny.gov/lands/86531.html>. If your project is in a CEHA and a CEHA permit has been received, the permit should be submitted with this application under Documents Section Q\_13959.

#### Q\_16893

Will the project(s) reduce flooding or risk to a critical facility/critical infrastructure? Explain how each project will mitigate flood impact or otherwise protect critical facilities/infrastructure.

- Question Type: Standard Question
- Required: No
- Answer Type: Long Answer
- Characters: any
- Question Requirements:

**Critical Infrastructure** – systems, facilities, and assets that are vital for the functioning of society

Examples:

- Hospitals
- Non-hospital Medical Facilities
- Nursing Homes/Assisted Living Facilities
- Fire Departments
- EMS/Paramedics
- Water Treatment Facilities
- Schools
- Emergency Evacuation Routes

#### Q\_16894

Explain how each project will mitigate flood impact or further protect existing infrastructure (i.e., homes, business, roads bridges, etc.).

- Question Type: Standard Question
- Required: No
- Answer Type: Long Rich Text (HTML)
- Characters: any

#### Q\_16895

Describe how each project will sustainably enhance resilience to climate impacts such as sea level rise, increased rainfall, and/or increased likelihood of flooding.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any

#### Q\_16600

Describe the local capacity and effective organizational structure to complete the project, and if applicable the quality of applicant performance under previous Federal or State grant contracts, including EPF LWRP.

- Question Header: Project Management and Budget
- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any

#### Q\_1434

Describe the administrative structures in place to administer the requested grant. Identify individuals who will be responsible for specific tasks, such as contract and grants administration, fiscal accounting, and project management. For those managers and professionals already hired, describe their qualifications. Summarize consultant selection process and schedule, noting whether it is completed, underway or proposed. For future hires, describe qualifications sought and procurement/hiring method.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

This description should include relevant experience/background of all parties and their relationship to the applicant. Explain the qualifications of managers and professionals working on the project.

#### Q\_16609

Describe and document how the budget and costs were determined, how the budget includes adequate detail for all project components involved, is cost-effective, presents necessary and realistic costs, and does not contain extraneous expenses.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

Complete this question for all programs you are applying to under this CFA. Budget must be accurate and thorough with no extraneous or ineligible expenses. Budget narrative must include an explanation for the estimate of each budget line and clearly support the applicant's need for financial resources requested to achieve project outcomes. Reference the budget(s) submitted under Attachments of this CFA.

### Q\_16608

Describe matching share in detail, noting amount, source (including any restrictions on the use of funds from that source), type (cash, donated, in-kind), and if it is or when it will be available.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: 1 - 3500
- Question Requirements:

Complete this question for all programs you are applying to under this CFA. For the Community Resilience and Flood Risk Reduction Program, both the Coastal Rehabilitation and Resiliency and the Inland Flooding and LWRP Implementation Projects, State assistance awarded and paid shall not exceed 90% of the total eligible cost for the project.

### Q\_16371

Has the applicant or project been awarded prior State, Federal, or other funding and what was the amount and source of the funding? Please explain.

- Question Header: Funding
- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Rich Text (HTML)
- Characters: 0 - 500
- Question Requirements:

Complete this question for all programs you are applying to under this CFA.

### Q\_18342

If you are applying to more than one program as part of this CFA application, please describe if you are seeking full funding from any of the programs or if you are seeking partial funding from multiple programs. Include dollar amount(s) in your answer.

- Question Type: Standard Question
- Required: Yes
- Answer Type: Long Answer
- Characters: any

### Q\_16605

Do you have plans to apply to other funding programs to support this project? Will your project still be viable if you do not receive all funding requested? Please explain.

- Question Type: Standard Question
- Required: No
- Answer Type: Long Rich Text (HTML)
- Characters: any
- Question Requirements:

Complete this question for all programs you are applying to under this CFA. Please consult each grant program to determine cost eligibility for projects under each. Please note: Other State funds may not be used as match.

### Q\_18477

Responses to questions Q\_16371, Q\_18342 and Q\_16605 are used to evaluate applications for both RWG and Community Resilience and Flood Risk Reduction Grants program applications, even if displayed under another section. Have questions Q\_16371, Q\_18342 and Q\_16605 been completed to contain all information relevant to the proposed Community Resilience and Flood Risk Reduction Grants project?

- Question Type: Standard Question
- Required: Yes
- Answer Type: Yes/No
- Question Requirements:

If Q\_16371, Q\_18342 and Q\_16605 have not been completed to contain all information relevant to the proposed Community Resilience and Flood Risk Reduction Grants project, please go back and do so before submitting your final application.

### Q\_13611

The NYS Smart Growth Public Infrastructure Policy Act requires that a public infrastructure project meet the relevant smart growth criterion to the extent practicable. Public Infrastructure projects consist of construction or reconstruction of transportation, sewer, wastewater treatment, water, education, housing and other publicly supported infrastructure. Does the proposed project build new public infrastructure, expand public infrastructure or use, maintain, or improve existing public infrastructure?

If you are maintaining or improving existing public infrastructure, please answer "YES". If you are building new public infrastructure or expanding public infrastructure, please answer "YES".

If this is not applicable to your project, answer "NO".

#### Q\_13623

Please explain how the proposed project will mitigate future physical climate risk due to sea-level rise, and/or storm surges and/or flooding, based on available data predicting the likelihood of future extreme weather events, including hazard risk analysis data.

Specifically, explain how your project demonstrates that future physical climate risk due to sea-level rise, storm surge and flooding have been considered. For example, have you demonstrated consideration of the flood risk applicable to your specific structure type? Explain how the siting and design have evaluated flood-risk considerations, including, but not limited to, human health and safety, environmental effects, cost, funding-source requirements, feasibility and community impact.
